

OUR PROGRAMS

Harmonies of Hope provide an after school and weekend Community ArtsReach Educational and Performing Arts program. The areas of the Arts that would be focused on are Instrumental and Vocal Music, Dance, Theatre, Visual and Media Arts. Many of our communities have limited or no Community Performing Arts facilities in place to provide children opportunities to discover their artistic talents. Furthermore, throughout history in our country the Arts in our public schools are constantly in a “roller coaster” mode, providing no consistency in the development of the Arts in children. The Harmonies of Hope Community ArtsReach Educational and Performing Arts program would be an arts haven to the parents and children in the community by offering an outstanding arts instruction and development to children in their local community. The program will offer a consistent Arts development path for students.
